

The Town will include properties in the Historic Preservation Overlay Zone (HPOZ)

IF THEY ARE:

- Located in Purcellville outside the Purcellville Historic Corridor Overlay District (HCOZ).

AND THEY ARE:

- Identified by the Virginia Department of Historic Resources (DHR) or National Register of Historic Places (NRHP) as containing a structure contributing to a DHR/NRHP-listed historic district (such as the Purcellville Historic District or Goose Creek Historic District);

OR

- Individually listed by DHR/NRHP;

OR

- The Town Council chooses to recognize a property as a historic resource through the proper legislative process.

The Town and individuals need to work through the DHR process for getting individual properties listed and districts listed/adjusted, whether it involves the African American Architectural History properties that are not presently listed as contributing in DHR or presently listed and probably should not be. The Town's rules above should remain consistent. If a property meets the criteria above, they should be brought into the HPOZ.
