Committees, Commissions & Boards Application

The Town Council of Purcellville accepts applications on an ongoing basis from citizens who are interested in serving on one of our appointed boards, committees, or commissions. The Town relies heavily on citizens to staff our advisory organizations. Please take time to complete the following information.

The information provided with this application is public information and
I acknowledge that interviews are generally conducted during a public meeting.*

☒ I understand

Salutation* ☒ Mr. ☐ Ms.
☐ Mrs.

Full Name: Chris Martenis
Home Phone: 4803587894
(optional):
Cell:
Street: 17237 Pickwick Dr
Address:
Mailing
Address (if
different than
above):
Email: chris.martenis@gmail.com
Address:

Does the applicant have a financial interest in, or is the applicant related to anyone with a financial interest in, any matter that is either pending before the Committees, Commissions & Boards or is likely to come before the Committees, Commissions & Boards? *

☐ Yes ☒ No

If Yes, please explain:

Please check any of the Committees, Commissions or Boards in which you would like to be considered for appointment.*

<input type="checkbox"/> Board of Architectural Review	<input type="checkbox"/> Planning Commission
<input checked="" type="checkbox"/> Board of Zoning Appeals	<input type="checkbox"/> Purcellville Arts Council
<input type="checkbox"/> Community Policing Advisory Committee	<input type="checkbox"/> Town Council (when vacancy occurs)
<input type="checkbox"/> Economic Development Advisory Committee	<input type="checkbox"/> Train Station Advisory Board
<input type="checkbox"/> Parks and Recreation Advisory Board	<input type="checkbox"/> Tree and Environment Sustainability Committee

Please describe your interest in being part of the Town's governmental process and how you feel you can contribute. You may also attach a letter of interest and/or resume (PDF files only). *

I've worked in and around construction projects in the Northern Virginia area for the past 7 years as a program manager for AWS. I think that I can apply the same level of scrutiny to zoning appeals that I do to all of the decisions that I participate in or am responsible for relative to my job. The reason that I'm applying is that I would like to participate more in local government in order to contribute to the town that has provided my family over the

last three years. I would like to help contribute, even in a small way, to balancing the growth and maintenance of the character of the Town of Purcellville.

CHRIS MARTENIS

Purcellville, VA • chris.martenis@gmail.com • 480 358 7894

TECHNICAL PROGRAM MANAGER

Strong problem solving and team leadership skills for crafting innovative solutions in demanding environments

Solution-driven technology professional combining solid history of effective project leadership with broad technical knowledge of datacenters, construction, physical security, and network design concepts, to meet aggressive project deadlines in high-stress settings for corporate and defense customers. Dynamic leader, highly skilled in planning, coordinating, and juggling multiple priorities to generate enhanced productivity and efficiencies. Excellent communication talents for clearly and effectively interfacing with clients, coordinating with vendors, supervising multicultural associates, and training users for positive results.

Highlights of Expertise

- Strategic Planning
 - Program Management
 - Process Improvement
 - Datacenter Construction
 - High
 - Information & Network Security
 - Budget Administration
 - Training & Support
 - Team Leadership
-

PROFESSIONAL EXPERIENCE

AMAZON WEB SERVICES

MAY 2014 – PRESENT

Principal Technical Program Manager

Manage multiple teams to deliver datacenter space to host Amazon Web Services (AWS). Responsibilities include the leading multi-disciplinary teams to accomplish to deploy or retrofit datacenters, management of budget, schedule, and scope for >\$100MM projects.

- Led global program to increase availability of electrical power systems for both AWS operated and colocation datacenters
- Led global program to reclaim / renovate space in datacenters left available from retired systems
- Led construction of our first datacenters in Ohio region, leading to CMH region launch
- Led successful transition of live datacenter containing mission critical systems to a new facility
- Deployment of specialized datacenter solutions for unusual environmental requirements and other experimental concepts
- Lead concept development for cross-organizational physical security initiative

ONTOP TECHNOLOGY., Phoenix, Arizona

March 2013 – April 2014

Director of Operations

Negotiate and specify hosted managed services for small to medium sized companies in the Phoenix area. Scheduled and coordinate team of engineers and technicians to install, configure, and maintain unified communications, hosted servers, email, and other enterprise IT solutions.

- Developed SDLC-based procedures for requirements capture, systems design, and deployment of services
- Participated in SSAE16 documentation preparation
- Led physical systems consolidation for a virtual server platform hosting a unified communications system that supports ca. 7500 users with no system downtime

M.C. DEAN, INC., Stuttgart, Germany

2005 – 2013

Project Manager - Professional Services (2008 – 2013)

Implementation Manager - Professional Services (2007 – 2008)

...continued...

Leverage technical expertise and defense industry background to plan and direct portfolio of network installation projects for Department of Defense customers in Germany, Italy, and Northern Africa. Prepare and present proposals to negotiate agreements with military and civilian clients. Formulate and administer project plans and budgets valued between \$100K and \$3.5MM. Allocate resources; schedule and coordinate multidisciplinary team of as many as 20 engineers and technicians. Monitor and report on project status and outcomes.

- Charged with instituting knowledge management policy for world's largest interoperability exercise and deploying a multi-site network featuring a variety of security-based services.
- Delivered training program to African military constituents on Internet-based collaborative tools.
- As Implementation Manager, led and trained team of six technical professionals and collaborated with multinational populations to install, configure, deploy, and maintain VSAT-based nodes, Cisco-based networks, and Windows computer systems.

Systems Administrator - Professional Services (2005 – 2007)

Administered network for European branch office of mid-sized construction company. Traveled extensively throughout Europe, interacting with U.S. military personnel to craft and implement technology solutions for the Department of Defense/Department of State. Liaised with vendors and researched products. Drafted and presented proposals; developed engineering documentation. Assessed network requirements and proactively contributed technical know-how to facilitate success of project implementations.

- Maintained productivity levels and minimized downtime while transitioning network from single Microsoft 2000 Server to four Windows 2003 Servers in tandem with branch relocation.
- Designed and integrated FIPS 140-2 compliant 802.11a/b/g solution for U.S. Army customer in Europe.

KBR INTERNATIONAL, Various Locations, Iraq

2003 –2005

IT Lead / Communications Supervisor

Spearheaded multinational team of 28 to manage network, phone, and satellite dish installations across Northern Iraq. Researched and developed various wireless systems and networking equipment, including design and implementation of last mile wireless network with Motorola's Canopy system. Coordinated with military personnel and subcontractors in completing numerous projects to enable connectivity for remote user base. Suggested recruitment of regional programmers and trained new technicians. Ordered and controlled supplies.

- Instituted user support standards for over 11 sites while working 12/7 for 16 months in demanding war zone conditions.
- Contributed to generating \$4MM in savings while collaborating on preparation of FY2005 budget.

~ Additional career experience can be provided on request.~

PATENTS

AUTONOMOUS DELIVERY TRANSPORTATION NETWORK (US9552564B1) – Patent describing autonomous vehicle management system.

EDUCATION AND PROFESSIONAL DEVELOPMENT

Masters of Science, Systems Engineering, 2014 – JOHNS HOPKINS UNIVERSITY, BALTIMORE, MD
Final Project – Autonomous Vehicle Network System Specification

Bachelor of Science, Information Systems Management, 2010 – UNIVERSITY OF MARYLAND - UNIVERSITY COLLEGE, Adelphi, MD
